EXPERIENCE

IE Soft Gaming
May 2023 - present
Backend Developer

- Built a Scalable System: Created a system that could handle a lot of users and stay reliable even when many people used it at the same time.
- Kept Things Secure: Made sure user data and transactions were safe by using strong security methods like passwords and encryption.
- Made Things Faster: Improved how the backend worked to make the game run smoother and respond more quickly.
- Worked as a Team: Used tools like Git to work with other developers and keep the code in good shape.
- Worked with Others: Worked closely with designers and managers to make sure the project stayed on track and met its goals.
- Available Around the Clock: Was ready to help with urgent issues to keep the game working all day, every day.

Doss House Marketing Services
